Lasso recovery with strong and weak effects
Gaussian Toeplitz predictors: adjacent correlation = 0.1 | Noise SD = 0.5
Paper setting
Five weak effects
Linear | p = 128, k = 51
Linear | p = 256, k = 102
Linear | p = 512, k = 204
Sublinear | p = 128, k = 13
Sublinear | p = 256, k = 22
Sublinear | p = 512, k = 38
Fractional power | p = 128, k = 15
Fractional power | p = 256, k = 25
Fractional power | p = 512, k = 43
